TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

MISCELLANEOUS AMENDMENTS TO CHAPTER

The following amendments are effective February 11, 1952. Any agency may, at its discretion, begin to operate under them at any time prior to that date.

PART 2—APPOINTMENT THROUGH THE COMPETITIVE SYSTEM

1. A new paragraph (d) is added to § 2.113 as follows:

§ 2.113 *Probational appointment.* (a) * * *

(d) A probational appointment shall not be made to any position vacated by a permanent employee called to military service or transferred with reemployment rights to a national defense activity.

2. Paragraph (b) of § 2.114 is amended to read as follows:

§ 2.114 *Temporary appointment.* * * *

(b) *Job employment.* When there is work of a temporary character, at the completion of which the services of an additional employee will not be required, a temporary appointment for job employment may be made, with the prior approval of the Commission, for a period not to exceed one year. Such appointments, when made for a period of less than one year, may be extended without further approval of the Commission for a period or periods not extending beyond one year from the date of original appointment. Any person eligible for indefinite appointment under § 7.105 (a) of this chapter, or any person eligible to transfer to another agency under § 8.108 of this chapter, may be noncompetitively selected for job employment without regard to registers of eligibles or prior approval of the Commission. Whenever there are insufficient available eligibles on registers, in making appointments under this paragraph agencies shall (1) give preference first to 10-point veterans and second to 5-point veterans; and (2) obtain a decision from

the Commission whenever it is necessary to determine whether any applicant is disqualified because of physical unfitness. Appointments under this authority shall be subject to the restrictions of § 8.109 of this chapter.

(R. S. 1753, sec. 2, 22 Stat. 403; 5 U. S. C. 631, 633. E. O. 9830, Feb. 24, 1947, 12 F. R. 1259; 3 CFR, 1947 Supp.)

PART 7—NONCOMPETITIVE INDEFINITE APPOINTMENT OF FORMER EMPLOYEES AND INDEFINITE EMPLOYEES OF OTHER AGENCIES; AND PROMOTION, DEMOTION; AND REASSIGNMENT OF INDEFINITE EMPLOYEES

1. The head note to Part 7 has been amended to read as set out above. Subparagraphs 2 and 4 of § 7.105 (a) are revoked, and subparagraphs 3, 5, 6, 7, 8 and 9 are redesignated as subparagraphs 2, 3, 4, 5, 6 and 7. Section 7.105 has been amended and § 7.106 is added.

§ 7.105 *Agency authority and general requirements for noncompetitive indefinite appointments.* (a) After September 1, 1950, the employment noncompetitively of former Federal employees, and of indefinite employees of other agencies, shall be by indefinite appointment. The Commission hereby delegates authority to agencies to make such indefinite appointments subject to the following conditions:

(1) Any former Federal employee having a competitive status may be appointed in any agency.

(2) (i) Any former Federal employee without competitive status may be appointed in a defense activity, provided his former employment was under an indefinite appointment during which he obtained such specialized experience as is needed to perform the duties of the position to which his appointment is proposed: *Provided*, That in making such appointments agencies shall give preference first to all 10-point preference applicants, both status and non-status, and second to all 5-point preference applicants, both status and non-status, having such specialized experience.

(ii) Any employee (with or without competitive status) serving in a nondefense activity under indefinite appointment in a competitive position (or in an excepted position to which he was appointed in accordance with the Commission's regulations for the competitive service) may be appointed in any defense activity. Any former employee without competitive status who last served in a nondefense activity under indefinite appointment in a competitive position (or in an excepted position to which he was appointed in accordance with the Commission's regulations for the competitive service) may be appointed in any defense activity if he has been separated within the preceding 30 days.

(iii) Any employee or former employee without competitive status who last served under indefinite appointment in a competitive position (or in an excepted position to which he was appointed in accordance with the Commission's regulations for the competitive service) may be appointed in any agency if he has received a notice of separation because of reduction in force, or has been separated within the preceding 90 days because of reduction in force.

(iv) Any former employee without a competitive status who entered the military service while serving under an indefinite appointment in a competitive position (or in an excepted position to

which he was appointed in accordance with the Commission's regulations for the competitive service) may be appointed in any agency within 90 days after his honorable separation from the military service.

(3) All indefinite appointments under this section shall be made in accordance with the standards of the Commission and shall be subject to the restrictions of § 8.109 of this chapter.

(4) The Commission may disapprove any such indefinite appointment, or suspend or withdraw this authority whenever, after post-audit, it finds that the regulations in this section have not been followed.

(5) The trial period for persons appointed under this section shall be a complete one-year period. However, if they are appointed without a break in service of one work day while serving a trial period, such appointment shall be subject to completion of such period. Persons appointed after a break in service during the probationary or trial period shall be required to begin a new trial period. A new trial period shall not be required for persons who have previously served a probationary or a trial period of one year.

(6) Persons given such indefinite appointments do not thereby acquire a permanent civil service status.

(7) Persons serving under such appointments are eligible for within-grade salary-step increases in the same manner as provided in § 2.115 (c) of this chapter.

§ 7.106 Agency authority and general requirements for promotion, demotion, or reassignment of indefinite employees.

(a) The Commission hereby delegates authority to agencies to promote, demote, or reassign any employee serving under indefinite appointment in a competitive position (or in an excepted position to which he was appointed in accordance with the Commission's regulations for the competitive service), in accordance with the standards of the Commission and subject to the restrictions of § 8.109 of this chapter.

(b) The Commission may disapprove any promotion, demotion, or reassignment, or suspend or withdraw this authority whenever, after post-audit, it finds that the regulations in this section have not been followed.

(c) The promotion, demotion, or reassignment of an employee serving under indefinite appointment shall not affect his status as an indefinite employee.

(d) The promotion, demotion, or reassignment of an indefinite employee during his trial period shall be subject to completion of such period.

PART 8—PROMOTION, DEMOTION, REASSIGNMENT, AND TRANSFER OF PERMANENT EMPLOYEES

SUBPART A—PROMOTION, DEMOTION, REASSIGNMENT, AND TRANSFER WITHOUT REEMPLOYMENT RIGHTS

1. The head note to Part 8 has been revised to read as set out above. In addition, Part 8 has been subdivided into Subparts A and B. Sections 8.107,

8.108 and 8.110 have been amended. Section 8.112 has been amended and redesignated as § 8.111. Sections 8.113, 8.114 and 8.115 are revoked. New sections 8.201 to 8.207 inclusive are added as Subpart B. As revised and amended, Part 8 (except for the sections which have been suspended) will read as follows:

§ 8.107 Promotions, demotions, reassignments, and transfers without reemployment rights. (a) All promotions after September 1, 1950, shall be indefinite.

(b) All reassignments of an employee on and after December 1, 1950, to positions above the grade (or level) which he last occupied on a permanent basis shall be indefinite. All reassignments within his last permanent grade (or level) may be either permanent or indefinite in the discretion of the head of the agency, except that any reassignment to the position last held on a permanent basis shall be permanent.

(c) All demotions of an employee on and after December 1, 1950, to positions above the grade (or level) which he last occupied on a permanent basis shall be indefinite. All demotions to positions below his last permanent grade (or level) shall be permanent. All demotions to positions within his last permanent grade (or level) may be either permanent or indefinite in the discretion of the head of the agency, except that a demotion to the position last held on a permanent basis shall be permanent.

(d) On and after November 1, 1951, the transfer of a permanent employee from one agency to another shall be permanent; but when such transfer is to a position above the grade (or level) the employee last occupied on a permanent basis, his occupancy of the higher grade position shall be on an indefinite basis.

§ 8.108 Agency authority for promotion, demotion, reassignment or transfer without reemployment rights. (a) The Commission hereby delegates authority to agencies:

(1) To promote, demote, or reassign any permanent employee having a competitive status and serving in a competitive position (or in an excepted position to which he was appointed in accordance with the Commission's regulations for the competitive service).

(2) To promote, demote, or reassign on an indefinite basis any status quo employee.

(3) To transfer without reemployment rights any permanent employee having a competitive status and serving in a competitive position (or in an excepted position to which he was appointed in accordance with the Commission's regulations for the competitive service): *Provided*, That this authority shall not be used in the case of any transfer from a non-defense to a defense activity which can be effected with reemployment rights under § 8.204. Such actions shall be taken in accordance with the standards of the Commission.

(b) The indefinite appointment without reemployment rights of any permanent employee having a competitive status and serving in a competitive position (or in an excepted position to which

he was appointed in accordance with the Commission's regulations for the competitive service) which was made on or after November 1, 1951 under former § 7.105 (a) (2) of this chapter, without a break in service of one work day, is hereby converted to a transfer without reemployment rights under this section.

(c) The Commission may disapprove any promotion, demotion, reassignment, or transfer, or suspend or withdraw this authority whenever, after post-audit, it finds that the regulations in this subpart have not been followed.

§ 8.109 *Restrictions on promotion, transfer or appointment to a higher grade, and reassignment to a different line of work*—(a) *Reassignment after competitive appointment.* No person who has been given a competitive appointment under § 2.113 or § 2.115 (a) or (b) of this chapter shall be reassigned to a different line of work within three months after such appointment if the position to be filled is not higher than grade GS-5 (or equivalent) or within six months after such appointment if the position is higher than grade GS-5 (or equivalent).

(b) *Actions to grade GS-5 or below (or equivalent).* (1) No employee or former employee may be promoted, transferred to a higher grade, or appointed to a higher grade within three months after his last competitive appointment under § 2.113 or § 2.115 (a) or (b) of this chapter, and

(2) No employee or former employee may be advanced more than two grades above the lowest grade he held within the past twelve months under permanent or indefinite appointment. This advancement may be two grades at one time or in two separate actions.

(c) *Actions to grade GS-6 or above (or equivalent).* (1) No employee or former employee may be promoted, transferred to a higher grade, or appointed to a higher grade within twelve months after the permanent or indefinite appointment which began his latest period of continuous Federal employment, or after his last promotion, transfer to a higher grade, or appointment to a higher grade (whichever is later), and

(2) No employee or former employee may be advanced more than one grade above the lowest grade he held within the past twelve months under permanent or indefinite appointment. However, in the following cases he may be advanced two grades above the lowest grade he held within the past twelve months when the position to be filled is:

(i) Not higher than grade GS-11 (or equivalent) and is in a line of work properly classified at two-grade intervals under the Classification Act of 1949, or properly established at equivalent intervals under other wage fixing authority; or

(ii) In the agency in which he is serving if there is no position in the normal line of promotion in the grade immediately below that of the position to be filled and prior approval of the Commission has been obtained.

(d) *Training agreements.* The restrictions in this section shall not apply to any person who is being promoted in

accordance with a training agreement which has been approved by the Commission. Such agreements shall not provide for advancement of more than two grades (or equivalent) within any twelve-month period. For further advancement to GS-6 (or equivalent) or above, any time or grade requirement in accordance with paragraph (c) of this section shall begin with the effective date of the last promotion under the training agreement. For all grades, further promotions shall not result in advancement of more than two grades within any twelve month period.

(e) *Persons demoted or separated by reduction in force.* The restrictions in this section shall not apply to any person who is being advanced to any grade or level up to that from which he had ever been demoted or separated, by any agency, because of reduction in force. Any time or grade requirement for advancement above the grade or level from which he had been separated or demoted shall begin with the effective date of his advancement to that grade.

(f) *Persons within reach on registers.* The restrictions in this section shall not apply to any person who is within reach on a civil service register for competitive appointment to the position to be filled. Any time or grade requirement for further advancement shall begin with the effective date of the action permitted by this paragraph.

§ 8.110 *Tenure after change of position.* (a) The promotion, demotion, or reassignment of a permanent employee shall not change his status as a permanent employee of the agency. A permanent employee transferred from one agency to another, shall have the status of a permanent employee in the new agency at the grade or level of his permanent position in the agency from which transferred. However, when the position to which transferred is in a lower grade or level than such permanent position, he shall have the status of a permanent employee in the new agency at the grade or level to which transferred. At the time he leaves his permanent position the agency shall record in his Official Personnel Folder sufficient information to identify clearly the position he last held on a permanent basis.

(b) The promotion, demotion, reassignment, or transfer of any employee during his probationary period shall be subject to completion of such period. Any probationary employee who was given an indefinite appointment in another agency under former § 7.105 (a) (2) of this chapter without a break in service of one work day between September 1, 1950, and November 1, 1951, shall be credited with all service under such indefinite appointment toward completion of probation.

(c) Any permanent employee of the agency who is reached for separation by reduction in force from the grade or level to which he was promoted, demoted, or reassigned on an indefinite basis shall, unless he is placed in a higher grade position than the one last occupied on a permanent basis, be considered as restored to the position he last held on a permanent basis or to one in the same

grade (or level) as such position and shall compete for retention at that grade (or level) under Part 20 of this chapter.

§ 8.111 *Promotion of substitutes in the Postal Service.* Substitutes shall be promoted to the first vacancies occurring in regular positions in the order of their original appointment, whenever there are substitutes of the required sex who are eligible and will accept, unless such vacancies are filled by promotion or transfer, or by indefinite appointment of persons with competitive status under Part 7 of this chapter. Whenever two or more substitutes are appointed on the same day the order of promotion shall be the order in which their names appeared on the civil-service register from which they were originally appointed.

SUBPART B—TRANSFER AND APPOINTMENT WITH REEMPLOYMENT RIGHTS IN AND OUTSIDE THE COMPETITIVE CIVIL SERVICE

§ 8.201 *Reemployment rights defined.* Any permanent employee granted reemployment rights under this subpart shall be entitled to be reemployed with the status of a permanent employee, within thirty days of his application, by the original agency in which he was granted reemployment rights in the occupational field and at the same grade or level and in the same geographical area as the position which he last held on a permanent basis in that agency: *Provided,* That if his reemployment would cause the separation or demotion of another employee he shall then be considered an employee for the purpose of applying Retention Preference Regulations to determine what, if any, position he is entitled to: *Provided further,* That upon reemployment in the Postal Service he shall be given the seniority he would have attained had he remained in the Postal Service.

§ 8.202 *Employees who are eligible for reemployment rights.* (a) The following groups of employees in the Executive branch of the Government are eligible to be granted reemployment rights when they are transferred or appointed to a competitive position, or to an excepted position, in a defense activity without a break in service of one work day:

(1) Any permanent employee having a competitive status and serving in a competitive position.

(2) Any permanent employee having a competitive status and serving in an excepted position to which he was appointed in accordance with the Commission's regulations for the competitive service.

(3) Any status quo employee.

(4) Any permanent employee without competitive status serving in an excepted position.

(b) A permanent employee who has been transferred or appointed with reemployment rights shall be eligible for further transfer or appointment, with retention of reemployment rights in the original agency, when all such further transfers or appointments meet the conditions of § 8.203 of this subpart for granting reemployment rights.

(c) A permanent employee who has received a notice of involuntary separa-

tion because of reduction in force or otherwise, or who has already submitted a resignation (other than for the purpose of transfer), shall not be eligible for transfer or appointment with reemployment rights.

§ 8.203 *Conditions under which reemployment rights are granted.* (a) Whenever a permanent employee of a nondefense activity is transferred or appointed to a position in a defense activity he shall be granted reemployment rights unless the Commission determines, upon appeal by the nondefense activity that he shall not be granted reemployment rights because he is engaged in an activity essential to the public welfare and the loss of his services would jeopardize such activity. In all cases the defense activity shall notify the nondefense activity at least 5 days before the effective date of the transfer or appointment, that it proposes to transfer or appoint such employee with reemployment rights. If the nondefense activity decides to appeal to the Commission to determine whether the employee shall be granted reemployment rights, it shall submit its appeal within 3 days after receipt of notice of the proposed transfer or appointment, and at the same time notify the defense activity of such appeal.

(b) A permanent employee of a defense activity transferred or appointed to a position in another defense activity shall be granted reemployment rights whenever:

(1) The agency in which he is serving determines that his transfer or appointment in the other defense activity will be in the interest of the defense program; or

(2) The Commission determines, upon appeal by the agency desiring his services, that his transfer or appointment will be in the interest of the defense program.

(c) The granting of reemployment rights shall be subject to standards issued by the Commission.

§ 8.204 *Agency authority and general requirements for transfer or appointment with reemployment rights.* (a) *Filling competitive positions.* The Commission hereby delegates authority to agencies whenever the conditions of § 8.203 of this subpart are met to employ with reemployment rights permanent employees of another agency as follows:

(1) By transfer, any permanent employee having a competitive status and serving in a competitive position (or in an excepted position to which he was appointed in accordance with the Commission's regulations for the competitive service). The indefinite appointment with reemployment rights of any such employee which was made on or after November 1, 1951, under former § 8.115 (a) without a break in service of one work day, is hereby converted to a transfer with reemployment rights under this section.

(2) By indefinite appointment, any permanent employee without competitive status serving in an excepted position, and any status quo employee.

(b) *Filling excepted positions.* In the discretion of the agency, any position excepted from the competitive service may be filled by appropriate excepted appointment, or by transfer or appointment in accordance with the Commission's regulations for the competitive service. Any permanent employee who is so transferred or appointed in an excepted position without a break in service of one work day shall be entitled to reemployment rights in his original agency when such appointment or transfer meets the conditions of § 8.203 of this subpart for granting reemployment rights.

(c) *Standards and promotion restrictions.* All transfers and appointments under this section to competitive positions shall be made in accordance with the standards of the Commission and shall be subject to the restrictions of § 8.109.

(d) *Post-audit.* The Commission may disapprove any such transfer or appointment to a competitive position or suspend or withdraw this authority whenever, after post-audit, it finds that the regulations in this subpart have not been followed.

(e) *Probationary or trial period.* Persons transferred or appointed under this section to competitive positions shall not be required to serve a new probationary or trial period. However, the transfer of any employee during his probationary period shall be subject to completion of such period.

(f) *Within-grade salary steps.* Persons serving under such transfers or indefinite appointments are eligible for within-grade salary-step increases in the same manner as provided in § 2.115 (c) of this chapter.

§ 8.205 *Tenure while serving with reemployment rights.* (a) Any permanent employee with competitive status transferred with reemployment rights to a competitive position shall have retention rights as a permanent employee in the agency to which transferred. A permanent employee without competitive status (excepted or status quo) who is given an indefinite appointment with reemployment rights is not eligible to be retained in a competitive position on a permanent basis, and shall have retention preference rights as an indefinite employee in the agency in which appointed. Any permanent employee who is given a permanent excepted appointment with reemployment rights shall have retention preference rights as a permanent employee in the excepted position. Any permanent employee who is given an indefinite or temporary excepted appointment with reemployment rights shall have retention preference rights in the excepted position according to the tenure of such appointment.

(b) The provisions of paragraph (a) of this section shall be used to determine the retention preference rights of permanent employees who were given indefinite appointments with reemployment rights under former § 8.115 (a) after November 15, 1950.

§ 8.206 *Conditions under which employees may apply for reemployment.* (a) An employee shall be entitled to reemployment by the original agency in which he was granted reemployment rights when he is:

(1) Involuntarily separated without cause such as would reflect on his suitability for reemployment; or

(2) Reduced to a grade or level below his last permanent grade or level.

(b) The right to reemployment in accordance with this subpart shall expire unless the employee makes application for reemployment within forty days after he is separated, or within forty days after he is notified by the agency he left to enter military service that it is unable to restore him in accordance with § 35.5 of this chapter. The employee shall lose his reemployment rights if he applies for reemployment after reduction in grade or level, and then declines an offer of reemployment in accordance with his rights under § 8.201 of this subpart at or above his last permanent grade or level in his original agency. His rights shall likewise expire when the agency in which he has reemployment rights (or the Commission, upon appeal) takes final action on his application for reemployment following separation.

§ 8.207 *Appeals to the Commission.* (a) Any permanent employee transferred or appointed with reemployment rights (or given an indefinite appointment with reemployment rights under former § 8.115 (a)) who has been denied reemployment may appeal to the Commission, and final decision of his right to reemployment shall be made by the Commission.

REVOCATION OF PART

NOVEMBER 21, 1951.

Part 127, Chapter I, Title 8 of the Code of Federal Regulations, is hereby revoked.

This order shall become effective on the date of its publication in the FEDERAL REGISTER. The purpose of the regulations prescribed by the said Part 127 was to implement the provisions of the act of June 29, 1946, as amended (60 Stat. 339; 50 U. S. C. 1851-1855), which related to the admission into the United States of alien fiancées or fiancés, of citizen members of the armed forces of the United States. Since that act has become inoperative, the said regulations have likewise become inoperative; hence, compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) relating to notice of proposed rule making and delayed effective date is unnecessary and would serve no useful purpose.

REG. X—REAL ESTATE CREDIT

GOVERNMENT-AIDED LOANS

1. Effective January 9, 1952, Regulation X is amended by the addition of the following paragraph (p) to section 5:

(p) *Certain Government-aided loans.* The prohibitions of paragraphs (a) and (b) of section 4 of this regulation shall not apply to a secondary loan to a borrower when the primary loan is made, insured, or guaranteed, in whole or in part, by any department or agency of the United States, if (1) the total amount of the primary and secondary loans does not exceed the maximum loan which legally could have been made, insured, or guaranteed by the department or agency for the borrower, and (2) the department or agency approves the making of the secondary loan.

2. a. The above amendment is issued by the Board of Governors of the Fed-

eral Reserve System with the concurrence of the Housing and Home Finance Administrator, under authority of the "Defense Production Act of 1950", approved September 8, 1950, as amended; and Executive Order No. 10161, dated September 9, 1950.

The purpose of the amendment is to clarify the position of veterans and other persons financing the purchase of a home in cases where secondary loans are combined with loans made, insured, or guaranteed by a department or agency of the United States Government.

b. Section 709 of the Defense Production Act of 1950 provides that the functions exercised under such act shall be excluded from the operations of the Administrative Procedure Act (60 Stat. 237) except as to the requirements of section 3 thereof.

Special circumstances have rendered impracticable consultation with industry representatives, including trade association representatives, in the formulation of the above amendment; and, therefore, as authorized by the aforesaid section 709, the amendment has been issued without such consultation.

PROPOSED RULE MAKING

FEDERAL COMMUNICATIONS
COMMISSION

[47 CFR Part 12]

[Docket No. 10102]

RADIO AMATEUR CIVIL EMERGENCY
SERVICE

NOTICE OF PROPOSED RULE MAKING

In the matter of providing a Radio Amateur Civil Emergency Service; Docket No. 10102.

1. Notice is hereby given of proposed rule-making in the above-entitled matter.

2. It is proposed to amend Part 12, "Amateur Radio Service" by the addition of a new subpart under the title, "Radio Amateur Civil Emergency Service." To accomplish this it is proposed to divide Part 12 into two subparts, to be called Subpart A and Subpart B. Subpart A shall include all present rules of Part 12, through and including § 12.162, preceded by the subtitle, "Amateur Radio Stations and Operators." No

changes in existing amateur rules, except as to format and addition of the described subtitle, is contemplated in this proceeding. In addition, it is proposed to add a new Subpart B, entitled, "Radio Amateur Civil Emergency Service," to be followed by the present Appendix to Part 12. The new rules proposed provide for a new temporary amateur radio service designed to afford radio communication for civil defense purposes. These rules contemplate that persons now holding amateur radio licenses shall apply for an additional authorization to operate in the new service in order to participate in civil defense communications activities. Authorizations for individual amateur stations to operate in the Radio Amateur Civil Emergency Service will be granted upon the express understanding that such grant is subject to change or cancellation at any time without hearing if, in the discretion of the Commission, such action is deemed necessary for the national defense and security, and with the further understanding that the Com-

mission, when normal conditions are restored, may terminate the Radio Amateur Civil Emergency Service by appropriate order giving 30 days' notice, or less, and thus invalidate outstanding authorizations to operate in this service prior to their normal expiration dates.

3. The proposed amendments are set forth below and are issued under the authority of sections 1.4 (d) and 303 (b), (1), and (r) of the Communications Act of 1934, as amended.

4. Any interested person who is of the opinion that the proposed amendments should not be adopted, or should not be adopted in the form set forth, may file with the Commission on or before February 15, 1952, a written statement or brief setting forth his comments. At the same time any person who favors the amendments as set forth may file a statement in support thereof. Comments or briefs in reply to the original comments or briefs may be filed within fifteen days from the last day for filing the said original comments or briefs. The Commission will consider all such comments,

PROPOSED RULE MAKING

briefs, and statements before taking final action. If any comments are received which appear to warrant the Commission in holding an oral argument before final action is taken, notice of the time and place of such oral argument will be given such interested parties.

5. In accordance with the provisions of § 1.764 of the Commission's rules, an original and three copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: December 18, 1951.

Released: December 19, 1951.

GENERAL

§ 12.200 *Temporary nature of this service.* (a) The Commission, on January 17, 1951 issued a public notice to the effect that certain regularly allocated amateur frequency bands, named in the notice were to remain available for use by amateurs to provide for their participation in a civil defense radio-communications service, in the event normal amateur operation should be discontinued because of intensification of the national emergency. Prior to release of this public notice it was agreed that to call upon the resources in radio equipment and trained operators which now comprise the Amateur Radio Service would undoubtedly yield a large nucleus of man-power and equipment which could prove invaluable in an emergency. To implement the use of amateur stations and amateur operators in providing a civil defense radio-communications service in accordance with the announcement of January 17, 1951 a new subpart of the rules governing Amateur Radio Service, in convenient form for abrogation at such time as normal conditions are restored, is incorporated into Part 12. Under this subpart, which delineates the conditions and circumstances of such amateur operation, the licensed amateur, individually or as one of a group of amateurs, may offer his services and the use of his radio equipment to the people of his community and to the United States through the local Civil Defense organization.

(b) The new service, to be known as the Radio Amateur Civil Emergency Service, is intended to provide a temporary phase of amateur operation for Civil Defense communications purposes only, and the rules are limited in their force and effect to the period of the present national emergency as proclaimed by the President on December 16, 1950, to include any aggravation of that emergency which may necessitate the invoking of the President's War Emergency Powers under the provisions of section 606 of the Communications Act of 1934, as amended. Authorization for an amateur station to be operated in the Radio Amateur Civil Emergency Service will be granted upon the express understanding that such grant is subject to change or cancellation at any time without hearing if, in the discretion of the Commission, such action is deemed necessary for the national defense and security, and with the further understanding that the Commission, when normal conditions are restored, may terminate the Radio Amateur Civil Emergency Service by appropriate order giving 30 days notice, or less, and thus invalidate outstanding authorizations to operate in this service

prior to their normal expiration dates. Hence, the application forms prepared for this service require a statement from the applicant that he recognizes the temporary nature of the service and agrees to abide by any directions or orders of the Commission having the effect of modifying or terminating his authorization to operate his station in this service.

(c) Pursuant to the provisions of section 4 (j) of the Communications Act of 1934, as amended, records relating to the Radio Amateur Civil Emergency Service shall not be open to general public inspection.

§ 12.201 *Definitions.* For the purposes of this subpart, the following definitions are applicable:

(a) *Radio Amateur Civil Emergency Service.* A temporary radio-communication services carried on by licensed amateur radio stations while operating on specifically designated segments of the regularly allocated amateur frequency bands under the direction of authorized local, regional, or federal civil defense officials pursuant to an approved civil defense communications plan.

(b) *Radio Amateur Civil Emergency Station.* An amateur radio station which is authorized to operate in the Radio Amateur Civil Emergency Service, and is capable of being operated as a fixed, land, or mobile station for the purpose of transmitting and receiving civil defense communications.

(c) *Civil defense communications.* Communications or signals essential to the conduct of civil defense activities of duly authorized civil defense organizations, including communications directly concerning safety of life, preservation of property, maintenance of law and order, alleviation of human suffering and need and dissemination of warnings of enemy attack to the civilian population in case of actual or impending armed attack or in any disaster or other incident endangering the public welfare. Such communications may also include transmissions necessary to establishment and maintenance of the radio system and communications essential to the training of civil defense personnel.

(d) *Civil defense authority.* The legally appointed Director of Civil Defense, or his authorized alternate or representative, for the particular geographical area (city, county, etc.) which a proposed radio station is intended to serve, and who is responsible to local governmental authority for protection and aid to the civilian population in the event of armed attack or of any disaster or other incident endangering public safety.

(e) *Civil Defense Communications Officer.* The official of any duly constituted civil defense organization having direct responsibility under the Director of that organization for the provision, organization, maintenance, readiness, and utilization of all means of communication to be used by such civil defense organization in the performance of its lawful functions.

(f) *Civil Defense Radio Officer.* The duly designated official of a legally constituted civil defense organization who is directly responsible either to the Communications Officer or to the Director of

such civil defense organization for the provision, organization, maintenance, readiness, and utilization of all means of communication by radio to be used by such civil defense organization in the performance of its lawful functions.

(g) *Radio Amateur Civil Emergency Network.* All radio amateur civil emergency stations which are intended to be included in the civil defense communications plan of the area concerned, and which operate or are to operate in conjunction with a single control station.

(h) *Control station.* The term "control station" or "net control station" means any station unit authorized to be operated in the Radio Amateur Civil Emergency Service and designated by the civil defense radio officer, with the approval of the Director of civil defense or the Civil Defense Communications Officer, to direct the use and operation of other station units of the same civil defense organization which, together with the control station so designated, constitute a radio amateur civil emergency station network.

(i) *Civil defense communications plan.* A civil defense communications plan is the plan of operation to be used by a particular network or networks. Such plan may be drawn up in accordance with the needs of the particular area affected and the facilities, including licensed radio operators, available in that particular area. Plans need not be uniform but to be acceptable to the Commission they must comply with the following:

(1) The plan must be clearly described in writing and it may include diagrams or sketches.

(2) The plan must have been approved by the cognizant state or territorial and the federal civil defense authorities having jurisdiction of the area affected.

(3) The plan must include the name, address, official title, and a statement of the qualifications of the Civil Defense Radio Officer (and of any and all alternate Radio Officers) responsible for the organization, training, and utilization of the radio amateur civil emergency station networks under that plan, and the name, address, and official title of the civil defense authority responsible for the coordination of all civil defense activities of the area concerned.

(4) The plan must include a general description of each radio network, showing its location, purpose, the area of activity to be served, and estimate of the number of radio amateur stations and independent operating units of such stations intended to be used in the network, and a description, including the location and call sign, of its control station and of any alternate control station or stations.

(5) The plan must include a general statement as to the frequency bands to be used and the approximate number of stations, or units of stations, to be operated in each such band, together with a description of the method which has been adopted for liaison and coordination of frequency usage with other networks in the same and adjacent areas.

(6) The plan must include a statement setting forth the facilities available to the area and the procedures to be followed in determining the loyalty and

reliability of all radio officers and operators as required by §§ 12.214 (b) and 12.241 (a) of this subpart.

§ 12.202 *Applicability of rules governing amateur radio stations and operators.* In all cases not specifically covered by the regulations contained in this subpart, licensed amateur stations authorized to be operated in the Radio Amateur Civil Emergency Service shall be governed by the provisions of the rules governing amateur radio stations and operators (Subpart A of this part) which are not in conflict herewith. In any case of conflict, the rules governing the Radio Amateur Civil Emergency Service shall govern in respect to any station operated in that service.

ORGANIZATION

§ 12.211 *Organization of networks.* To supplement or extend other means of communication available to the civil defense organization or to provide necessary communications for which no other means exists, local radio amateur civil emergency station networks shall be organized by the civil defense authority of the area concerned and under the immediate direction of the Civil Defense Radio Officer. Such networks shall include all licensed amateur radio stations which are intended to be included in the civil defense communications plan of the area concerned. In any particular area there may be several such networks and each network may be independent of the others. Whenever there is more than one network in the same area, all such networks must share, under a single civil defense communications plan, the available frequencies in an efficient and orderly manner. The various networks in adjacent areas shall establish proper liaison and a description of the arrangements made shall become a part of their respective civil defense communications plans. Such arrangements shall provide for the efficient sharing of frequencies, plans for operating procedure designed to avoid mutual interference, and the exchange of communications facilities upon an inter-area basis where need for such exchange may arise.

§ 12.212 *Approval of civil defense communications plans.* (a) All civil defense communications plans which provide for the utilization of radio amateur civil emergency stations for civil defense purposes must be submitted to and approved by the cognizant state (or territorial) and federal civil defense authorities before the licensed amateur stations intended to be used will be authorized to operate in the radio amateur civil emergency service.

(b) Changes or modifications in such civil defense communications plans which alter the basic information required to be submitted shall be submitted for approval in the same manner as the original plans.

(c) Written certification of approval by the competent state (or territorial) and federal civil defense authorities of each civil defense communications plan, or of any changes or modifications thereof, shall accompany the copies of such plans, changes, or modifications, which

are submitted to the Commission in accordance with the provisions of this part.

§ 12.213 *Certification of Civil Defense Radio Officer.* (a) Certification of the radio officer shall be on FCC Form No. 482, signed by the cognizant civil defense official¹ of the area concerned. Such form shall be executed to show the name and address of the radio officer for the area to be served, together with a statement that he has accepted such appointment and agrees to perform faithfully, the duties of his office, including those prescribed by this subpart and certification as to his loyalty and integrity, describing the method used to ascertain such loyalty and integrity.

(a) He shall hold either a valid commercial radio operator's license of either first or second class (radiotelephone or radiotelegraph) or a valid amateur radio operator's license (other than Technician or Novice Class) issued by the Commission.

(b) He shall have been investigated and certified by controlling local governmental authorities as to his loyalty to the United States and his recognized integrity.

(c) It shall have been determined that his technical and administrative qualifications are adequate for the proper performance of his duties.

(b) The provision for adequate monitoring of all transmissions of the stations under his supervision to assure compliance with the rules and regulations of the Commission, and to guard against improper use of the radio stations and intentional or inadvertent transmissions which might jeopardize the defense or security of the United States.

(c) The recommendation to the Commission regarding the granting of authorizations to individual amateur stations, or units of such stations, for operation in the Radio Amateur Civil

Emergency Service, after he has assured himself as to the loyalty to the United States, integrity, and other necessary qualifications of the licensees of such stations.

(d) The recommendation to the Commission regarding the cancellation of any authorization to any licensed amateur station for operation in the Radio Amateur Civil Emergency Service whenever it is found, by further investigation or other circumstances, that the licensee of the amateur station, by reason of irresponsible behavior or questionable integrity, or by reason of questionable loyalty to the United States, would not have been recommended to receive such authorization had all of the circumstances been known at the time of the original recommendation.

STATION AUTHORIZATIONS

§ 12.221 *Station authorization required.* No radio station may be operated in the Radio Amateur Civil Emergency Service except pursuant to an authorization for such operation issued by the Federal Communications Commission.

§ 12.222 *Eligibility for station authorization.* An authorization to operate a station in the Radio Amateur Civil Emergency Service will be issued only to a person who holds an amateur radio operator license, other than Technician or Novice Class, and an appropriate amateur radio station license.

§ 12.223 *Filing of application.* Each application for a station authorization shall be submitted on FCC Form 480, which shall be signed under oath or affirmation by the applicant and countersigned by the appropriate civil defense radio officer, who shall certify to the following:

(a) That the applicant has satisfied all requirements (both local and federal) for participation in the civil defense organization and is actually enrolled as a member of the local organization which serves the area where the station will operate.

(b) That the amateur station licensed in the name of the applicant has been approved for and, when authorized by the Commission, will actually constitute a unit of a civil defense communications network in accordance with an approved civil defense communications plan or an approved amendment thereof.

§ 12.224 *Additional data required.* Each application for a station authorization in the Radio Amateur Civil Emergency Service shall be accompanied by the following data unless such material has already been submitted to the Commission, in which case the application shall clearly identify the material previously submitted:

(a) A copy of the approved communications plan (as defined in this part) for the civil defense communications network in which the station will operate, together with a copy of each approved amendment, change or modification of that plan.

(b) The official certification of the Civil Defense Radio Officer as provided in this subpart.

§ 12.225 *Single application for all equipment under one amateur station license.* Only one application need be made for any one licensed amateur station, including all transmitting equipment under the control of the licensee of that station, even though individual units of such station are capable of being operated and are intended to be operated independently at different locations, or as portable or mobile stations with no fixed locations. No distinction need be made between those units which are personally owned by the amateur station licensee and those units which are otherwise under his technical control for operation in this service.

§ 12.226 *Issuance of station authorization.* An authorization for an amateur station including all individual units thereof to be operated in this service, will be issued in the discretion of the Commission upon satisfactory completion of all requirements of this subpart and proper certification that the requirements of the cognizant civil defense organization for which the station will be used have been or are being complied with. The station authorization (Form 481) will be forwarded to the Civil Defense Radio Officer for delivery to the applicant. Such license will be accompanied by a stub (Form 481-A) which may be retained by the civil defense radio officer for his records.

§ 12.227 *Term of station authorization.* (a) The initial station authorization normally will be issued for a term running concurrently with the term of the amateur radio station license.

(b) Whenever the amateur station license of a station which also operates in the Radio Amateur Civil Emergency Service is renewed or modified, application for a new authorization for the station shall be filed with the Commission at least 60 days prior to expiration of the station license or, if the application involves modification only, sixty days prior to the date the station is to be operated under the modification.

(c) Nothing in this section shall be construed to alter or amend the temporary nature of a station authorization in the Radio Amateur Civil Emergency Service and the Commission's authority to cancel or amend it in accordance with the applicant's agreement as indicated on the initial application for station authorization.

§ 12.228 *Cancellation of station authorization.* (a) All licenses authorizing operation in the Radio Amateur Civil Emergency Service shall be issued with the express provision that any such authorization is subject to revocation or cancellation by the Commission upon less than 30 days' notice and without hearing whenever, in the opinion of the Commission, the security of the United States or the proper functioning of the Radio Amateur Civil Emergency Service would be served thereby.

(b) The station authorization shall be submitted to the Commission (via the Civil Defense Radio Officer) for cancellation under the following circumstances:

(1) The station for which the authorization was issued becomes inactive for a period of three months or it is not planned to use the station in the radio amateur civil emergency network for a period of at least three months.

(2) The amateur radio station license of the station has expired and has not been renewed.

(3) In cases where the amateur radio station license and the radio amateur civil emergency station authorization have both been modified, the original authorization of the latter shall be submitted to the Commission immediately upon receipt by the licensee of a new or modified authorization.

TECHNICAL REQUIREMENTS

§ 12.231 *Frequencies available.* (a) The following tabulation indicates the frequency bands, within the regularly allocated amateur frequency bands, which are available for use by stations in the Radio Amateur Civil Emergency Service and may continue to be used by such stations after any suspension of normal amateur activity because of war or other national emergency. These frequency bands may be used, on a non-exclusive basis, by the classes of radio amateur civil emergency stations or units of such stations indicated, and only with the types of emission shown in the right-hand column.

(1) For use only by authorized stations or units of such stations which are operated under the direct supervision of duly designated and responsible officials of the civil defense organization:

(b) The selection and use of specific frequencies within the authorized frequency bands by stations in the Radio Amateur Civil Emergency Service shall be in accordance with a coordinated local area and adjacent area civil defense communications plan and applicable sections of this part.

(c) These bands are jointly available to stations in the Radio Amateur Civil Emergency Service and to stations of the military services for training and tactical operations, and, in areas where mutual interference may occur, local arrangements shall be made regarding times of drills, tests, and other training operations. In time of an actual civil defense emergency, stations in the Radio Amateur Civil Emergency Service shall have absolute priority.

§ 12.232 *Classification of emissions.* (a) For the purposes of this subpart, the authorized emissions, as contained in the table of § 12.231, are defined as follows:

- 0.1 A1—Continuous wave telegraphy.
- 1.1 F1—Frequency shift telegraphy.
- 2 A2—Telegraphy amplitude modulated at audio frequency.
- 3 F2—Telegraphy frequency modulated at audio frequency.
- 6 A3—Commercial quality amplitude modulated telephony.
- 6 F3—Narrow band frequency or phase modulated telephony.
- 40 F3—Wide band frequency or phase modulated telephony.
- 6 A4—Amplitude modulated facsimile.

(b) On frequencies where wide band frequency or phase modulated telephony (40 F3) is authorized, narrow band frequency or phase modulated telephony (6 F3) may also be employed; similarly, where commercial quality amplitude modulated telephone (6 A3) is authorized, single or double sideband amplitude modulated telephony, with or without carrier or with reduced carrier, may also be employed.

§ 12.233 *Transmitter power.* The transmitting equipment of a radio station in this service shall be adjusted in such manner as to produce the minimum radiation necessary to carry out the communications desired. No station operating in this service shall use a direct current plate power input to the vacuum tube or tubes supplying energy to the antenna in excess of that permitted to be used by a licensed amateur radio station when operated on the same frequencies or in the same frequency bands in accordance with the provisions of the rules governing Amateur Radio Stations and Operators (Subpart A of this part).

§ 12.234 *Equipment requirements.* (a) Except under the conditions specified in paragraph (b) of this section, all stations authorized to be operated in the Radio Amateur Civil Emergency Service shall be capable of receiving on the same frequencies or frequency bands utilized for transmission.

(b) When a station in this service is operated only on a single frequency or frequency band for cross-band operation in communication with a station or stations operating on another frequency or in another frequency band, or in other services, such station shall be capable of receiving the station with which it is communicating.

(c) The direct modulation of an oscillator with a frequency stability less than that obtainable with crystal control, or the radiation of a signal having simultaneous amplitude and frequency or phase modulation, is prohibited on fre-

quencies below 220 Mc after December 31, 1952.

§ 12.235 *Alleviation of harmful interference.* (a) When an unauthorized emission results in harmful interference the Commission may, in its discretion, require appropriate technical changes in the equipment to alleviate interference.

(b) When harmful interference is caused to the conduct of the service of other classes of stations by authorized emissions of stations in the Radio Amateur Civil Emergency Service, appropriate action shall be taken to alleviate that interference including, if necessary, the suspension of such emissions as cause the interference except during the period in which the stations are actually engaged in transmitting civil defense communications other than drills and tests.

OPERATING REQUIREMENTS

§ 12.241 *Operator requirements.* (a) No person shall operate a station in the Radio Amateur Civil Emergency Service unless that person holds a valid radio operator license of the proper grade, as hereinafter described, and unless that person has been investigated and approved, as to his loyalty to the United States and his recognized integrity, by his local, regional or State Civil Defense organization, has satisfied all requirements, Federal, State, or local, for enrollment in the Civil Defense organization, and is actually enrolled therein. Such operator shall carry on his person or have readily available for inspection written certification by the Director of the local, regional, or State Civil Defense organization of the area in which he serves that the foregoing requirements have been satisfied.

(b) The person manipulating the key of a manually operated radiotelegraph transmitter of a station authorized to operate in this service shall hold either (1) any class of amateur operator license issued by the Commission, other than the Technician or Novice Class, or (2) any class of commercial radiotelegraph operator license issued by the Commission other than the Temporary Limited Radiotelegraph Second Class Operator License, together with the certification required in accordance with the provisions of paragraph (a) of this section.

(c) Except as specifically provided in paragraphs (a) and (b) of this section, any station in the Radio Amateur Civil Emergency Service may be operated by the holder of any class of amateur or commercial radio operator license issued by the Commission other than a Temporary Limited Radiotelegraph Second Class Operator License or an Aircraft Radiotelephone Operator Authorization: *Provided*, That, when such operation is performed by the holder of a Novice Class amateur operator license or by the holder of a commercial radiotelephone or radiotelegraph third class operator license or restricted operator permit: (1) Such operator shall be prohibited from making any adjustments that may result in improper transmitter operation, (2) the equipment shall be so designed and installed that none of the operations necessary to be performed during the course of the normal rendition of the service of the station may

cause off-frequency operation or result in any unauthorized radiation, and (3) any needed adjustments of the transmitter that may affect the proper operation of the station shall be regularly made by or under the immediate supervision and responsibility of the holder of either an amateur operator license other than the Novice class or a commercial radiotelephone or radiotelegraph first or second class operator license.

(d) All adjustments or tests during or coincident with the installation, servicing or maintenance of the transmitting equipment of a station in this service shall be made only by or under the immediate supervision and responsibility of the holder of either an amateur operator license other than the Novice class or a commercial radiotelephone or radiotelegraph first- or second-class operator license issued by the Commission who in addition holds the certification required in accordance with the provisions of paragraph (a) of this section.

§ 12.242 *Operation at other than licensed location.* A station in this service, or any unit thereof, may be operated at any location in accordance with the approved civil defense communications plan for the area concerned, in the discretion of and as directed by the Civil Defense Radio Officer, without notice to the Commission and without limitation as to the length of time within which such operation takes place: *Provided*, That nothing in this section shall be construed to waive the necessity for modification of the license of a station in this service when the address of the licensee or the basic location of the station is changed, or for any other reason where because of a change of radio officer or of the communications plan or other reason the information heretofore furnished the Commission with the original application may be materially altered or changed.

§ 12.243 *Availability of station authorizations and operator licenses.* (a) The original station authorization permitting operation of the licensed amateur station in the Radio Amateur Civil Emergency Service, or a photocopy thereof, shall be permanently attached to each transmitter of such station, including each transmitter which is capable of being operated and intended to be operated independently at different locations, if the transmitter is readily accessible, or, if the control position is located at a place other than the transmitter location, it may be posted at the control position: *Provided*, That, whenever a photocopy of the station authorization is utilized in compliance with the foregoing requirement, the original station authorization shall be made available for inspection upon reasonable request from any authorized representative of the Federal government.

(b) The original radio operator license, or a verification card (FCC Form 758-F) in the case of the holder of a commercial radio operator license of the diploma type, of the operator controlling the emissions of a station authorized to be operated in this service shall be carried on his person or kept immediately available at the place where he is oper-

ating the station or any independent unit of a station: *Provided*, That, whenever a verification card (FCC Form 758-F) is utilized in compliance with the foregoing requirement, the original operator license shall be made available for inspection upon reasonable request from any authorized representative of the Federal government.

(c) When a licensed amateur station, or an independent unit of such station, is operated at a location other than that shown in its license in compliance with the provisions of this sub-part, the basic amateur station license required by Sub-Part A of this part need not be readily available at the station or unit location, but shall be made available for inspection upon reasonable request from any authorized representative of the Federal government.

§ 12.244 *Radio station log.* (a) There shall be maintained at each radio amateur civil defense station which is operated at a fixed location an accurate log of all operations. The following information shall be recorded in the station log:

(1) Name and address of the station licensee, the regularly assigned call sign of the station, and d. c. plate power input to the vacuum tube or tubes supplying energy to the transmitting antenna system. This information need be entered only once in the log unless there is a change in any of the above items, but the original entry and each change shall show the date on which the entry was made.

(2) Date and time of beginning and end of each period during which the station is operated, and the frequencies or bands of frequencies on which the operation took place.

(3) The call signs and/or other identification of all stations or units of such stations with which communications are established or attempted, together with the approximate time of the beginning and end of such communications or attempted communications.

(4) Signature of each licensed operator who manipulated the key of a manually operated radiotelegraph transmitter or the signature of each licensed operator who operated the transmitter using any other type of emission, and the name (or signature) of any person not holding an operator license who transmitted by voice over the facilities of the station other than by automatic relay of the signal of another station or stations. The signature of the operator shall be entered with the date and time at the beginning and end of each period during which he manned the controls of the transmitter, and at least once on each page additional to the first page covering the period for which he was the responsible operator. The signatures of any additional operators who operated the transmitter during the regular watch of another operator shall be entered in the proper spaces to indicate the time they operated the transmitter.

(5) Upon completion of each period of operation for any purpose, there shall be entered in the log a summary of such operation describing the nature and details thereof.

(6) There shall be no erasure, obliterations or destruction of any part of the log of any station or station unit. Corrections shall be made by striking out the erroneous portion and initialing and dating the corrections.

(b) The current portion of the log shall be kept at the location of the control position of such station. Other portions of the log shall be retained by the licensee for a period of one year, at such place as he may deem appropriate and advisable: *Provided*, That the log of a station in this service shall be made available for inspection upon reasonable request by any authorized representative of the federal government: *And provided further*, That those portions of any log covering operation of a station in this service in connection with any actual condition jeopardizing the public safety or affecting the national defense or security shall not be destroyed unless prior approval for such destruction shall have been received from the Commission.

§ 12.245 *Station identification.* (a) Stations in this service shall identify themselves in the same manner and under the same conditions as prescribed in the rules governing Amateur Radio Stations and Operators, except that additional designators to indicate portable or mobile operation shall not be used.

(b) When two or more separate units of a station in this service are operated independently at different locations, each unit shall separately identify itself by the addition of a unit number at the end of its call sign. When transmitting by radiotelegraphy such additional identification shall be separated from the call sign by the use of the "slant" or fraction bar.

§ 12.246 *Tactical call signs.* Stations in this service, and independent units of such stations, may be assigned tactical or secret call signs by the Commission or by competent civil defense authority, and may utilize such tactical call signs in lieu of call signs prescribed by the Commission when such use is directed by competent civil defense authority in case of actual or impending conditions which might jeopardize the defense or security of the United States.

USE OF STATIONS

§ 12.251 *Limitations on use of stations.* (a) No station authorized to be operated in this service, other than a control station as defined in this subpart, shall be operated for the purpose of transmitting any signal, message, or other communications except with the permission and under the operational control of the control station of the network in which it is operating: *Provided*, That nothing in the foregoing shall be construed to prohibit the transmission by any station or unit of a station of such signals as may be necessary for the purpose of alerting or making contact with the control station of the network, or for the purpose of transmitting actual emergency civil defense communications if the control station is disabled or is otherwise inoperative.

(b) Nothing in this section shall be construed to prevent the operation of a station which is authorized to be oper-

ated in this service for the purpose of brief tests or adjustments during or coincident with the installation, servicing or maintenance of such station: *Provided*, That the transmissions of that station during such tests or adjustments shall not cause harmful interference to the conduct of communications by any other station.

(c) No station in this service shall be used to transmit or to receive messages for hire, nor to transmit communications for material compensation, direct or indirect, paid or promised.

§ 12.252 *Hours of operation.* Stations in this service may be operated at such times and under such conditions as may be prescribed by the Communications Officer or other responsible official of the civil defense organization having jurisdiction over the area which the station will serve: *Provided*, That the communications of such stations shall at all times be in accordance with the permissible communications authorized in this subpart.

§ 12.253 *Points of communication.* Stations in this service are authorized to communicate with each other, with stations in the Disaster Communications Service and with stations of the United States Government which are so authorized by the particular agency having control of such stations. In addition, stations in this service may, in an emergency, communicate with any other station in any service provided by the Commission's rules whenever such station is authorized to communicate with stations in the Radio Amateur Civil Emergency Service by the provisions of the Commission's rules governing the class of station concerned or in accordance with the provisions of § 2.405 of Part 2 of the Commission's rules.

§ 12.254 *Permissible communications.* Stations in this service are authorized to transmit only the following types of civil defense communications:

(a) Communications for training purposes: Necessary drills and tests to insure establishment and maintenance of orderly and efficient operation of the radio station networks and such other radio stations and networks as may be associated with the radio amateur civil emergency networks for the conduct of civil defense communications, including communications directly concerned with the conduct of practice alerts, practice blackouts, practice mobilization, or other comparable situations as may be ordered or initiated by competent governmental authority. All messages which are transmitted in connection with such drills and tests shall be clearly identified as such by the use of the words "Drill" or "Test" in the body of such messages.

(b) Communications when there is an impending or actual condition jeopardizing the public safety or affecting the national defense or security:

(1) Communications directly concerning the activation of the radio amateur civil emergency station networks or such other radio stations and networks as may be associated with the networks for the conduct of civil defense communications.

(2) Communications directly concerning the conduct of service by the radio amateur civil emergency networks and such other radio stations and networks as may be associated therewith.

(3) Communications directly concerning safety of life, preservation of property, maintenance of law and order, alleviation of human suffering and need, and combating of armed attack or sabotage.

(4) Communications directly concerning the accumulation and dissemination of public information or instructions to the civilian population essential to the activities of the civil defense organization or that of other authorized governmental or relief agencies.

(5) Communications directly concerning the transaction of business essential to public welfare.

§ 12.255 *Use of codes and ciphers.* Any station in this service is authorized to transmit messages in codes or ciphers and to transmit secret or coded authentication of the station or its messages when such method of transmission of messages or authentication procedure is required by the competent civil defense authority of the area served by the station.

§ 12.256 *Priority of communications.* The order of priority of communications by stations in this service, when there is an impending or actual condition jeopardizing the public safety or affecting the defense or security of an area, shall be determined by the cognizant civil defense authority of the area concerned or his authorized representative.

ardizing the public safety or affecting the defense or security of an area, shall be determined by the cognizant civil defense authority of the area concerned or his authorized representative.

§ 12.257 *Operating procedure.* The operating procedure, and the method of circuit control by the control station of each network, shall be determined by the cognizant civil defense authority of the area concerned and shall, in general, conform as nearly as possible to the operating procedure normally followed in other services in the expeditious handling of message traffic by the method of transmission in use.

[Ceiling Price Regulation 7, Section 43,
Special Order 282, Amdt. 3]

HANES HOSIERY MILLS Co.

CEILING PRICES AT WHOLESALE AND RETAIL

Statement of considerations. Special Order 282 under section 43 of Ceiling Price Regulation 7 established ceiling prices for sales at retail and wholesale of women's hosiery manufactured by Hanes Hosiery Mills Company. The wholesale and retail ceiling prices for certain of the articles covered by the special order were omitted in Amendment 2 to the Special Order.

This amendment corrects this error by listing the ceiling prices at wholesale and the ceiling prices at retail for the articles which were omitted in Amendment 2; and also lists those which appeared in Amendment 2.

Amendatory provisions. Special Order 282 under CPR 7, section 43, is amended in the following respects:

In paragraph 1, as amended, delete all after the sentence "Terms to retailers are either Net 10 or Net 30," and substitute therefor:

Style No.	Ceiling price at wholesale (per dozen)	Ceiling price at retail (per dozen)
530.....	\$9.65	\$1.35
420.....	10.75	1.50
415L.....	10.75	1.50
415M.....	10.75	1.50

Special Order 697, Amdt. 1]

FISHER, BRUCE & Co.

CEILING PRICES AT RETAIL

Statement of considerations. The accompanying amendment to Special Order 697 under section 43, of Ceiling Price Regulation 7 modifies those provisions relating to preticketing usually required by orders of this type. This amendment, designed to meet the particular requirements of the glassware industry, accomplishes the objective of notifying consumers of the uniform prices fixed under the order.

Amendatory provisions. 1. Delete paragraph 3 of the special order and substitute therefor the following:

3. On and after 30 days after the effective date of this special order Fisher, Bruce & Company must furnish each purchaser for resale to whom, within two months immediately prior to the effective date, the wholesaler had delivered any article covered by paragraph 1 of this special order, with a sign 8 inches wide and 10 inches high, a price book, and a supply of tags and stickers. The sign must contain the following legend:

The retail ceiling prices for Fisher, Bruce & Company glassware have been approved by OPS and are shown in a price book we have available for your inspection.

The price book must contain an accurate description of each article covered by paragraph 1 of this special order and the retail ceiling price fixed for each article. The front cover of the price book must contain the following legend:

The retail ceiling prices in this Fisher, Bruce & Company price book have been approved by the OPS under section 43, CPR 7.

The tags and stickers must be in the following form:

Fisher, Bruce & Co.
OPS—Sec. 43—CPR 7
Price \$-----

Prior to 60 days after the effective date of this special order, unless the retailer has received the sign described above and has it displayed so that it may be easily seen and a copy of the price book described above available for immediate inspection, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order. On and after 60 days after the effective date of this special order, no retailer may offer or sell any article covered by this order unless he has the sign described above displayed so that it may be easily seen and a copy of the price book described above available for immediate inspection. In addition, the retailer must affix to each article covered by the order and which is offered for sale on open display (except in show windows and decorative displays), a tag or sticker must contain the retail ceiling price established by this special order for the article to which it is affixed.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the wholesaler's application or changes the retail ceiling price of a listed article, the applicant named in this special order must, within 30 days after the effective date of this amendment, as to each such article, send an insertion stating the required addition or change for the price book described above. After 60 days from the effective date of the amendment, no retailer may offer or sell the article, unless he has received the insertion described above and inserted it in the price book. Prior to the expiration of the 60-day period, unless the retailer has received and placed the insertion in the price book, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Effective date. This amendment shall become effective January 7, 1952.

These new retail ceiling prices are listed in paragraph 2 of the special order and marked with an asterisk. The Director has determined, on the basis of information available to him, that the retail ceiling prices requested are in line with those already granted and are no higher than the level of cell-

ing prices under Ceiling Price Regulation 7.

Amendatory provisions. Special Order 706 under Ceiling Price Regulation 7, section 43, is amended in the following respects:

1. Delete paragraph 2 of the special order and substitute therefor the following:

The ceiling prices listed below which are marked with an asterisk shall become effective on receipt of a copy of this order by the retailer, but in no event later than 30 days after the effective date of this order. Ceiling prices not marked with an asterisk are effective upon the effective date of this order. Sales may, of course, be made below the retail ceiling prices.

Different ceiling prices are established for eastern and western zones. The western zone is comprised of the states of Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming. HARPER J. RANSBURG CO., INC.

CEILING PRICES AT RETAIL

Statement of considerations.—Special Order 651, issued to Harper J. Ransburg Company, Inc. on September 17, 1951, effective September 18, 1951, established ceiling prices at retail for kitchen wares, pantry wares, bathroom wares, waste baskets, window shelves, table stands and trays having the brand names "Ransburg," "Kitchen Boquet" and "Bathroom Boquet."

Harper J. Ransburg, Inc. has applied for a revocation of this special order. The applicant states that it is unable to comply with the pre-ticketing provisions of the special order. Revocation. 1. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling

Price Regulation 7, Special Order 651, issued to Harper J. Special Order 788]

C. B. SHANE CORP.

CEILING PRICES AT RETAIL

Statement of considerations. This is an order establishing uniform retail prices issued upon the basis of an application filed by a supplier under section 43 of CPR 7. This section gives a manufacturer or wholesaler the right to apply for uniform retail ceiling prices for certain of his branded articles. This section requires that the articles must customarily have been sold at substantially uniform prices, and the ceiling prices applied for must not raise the general level of prices under CPR 7. The order may, of course, be amended or revoked if further review shows that the requirements of the regulation have not been fully met.

This special order requires each article to be tagged or marked with the retail ceiling price. The supplier must send to each retailer a copy of this special order, as well as a list of ceiling prices for each article or cost line and notice of all amendments. The order requires the supplier to file certain sales reports with OPS.

Retailers will be concerned with sections 1 through 6 of this special order

which contain provisions applying to them. The rest of the order is of interest primarily to the applicant.

Order. For the reasons set forth in the statement of considerations and pursuant to section 43 of CPR 7, it is ordered that the following provisions be in effect:

Provisions for retailers.—1. *What this order does.* Sections 1 through 6 apply to you and establish uniform ceiling prices if you sell at retail the articles identified below:

Name and address of applicant: C. B. Shane Corporation, 2149 West 53rd Street, Cleveland, 1, Ohio.

Brand names: "Season Skipper", "Two Timer", "Double Topper" and "Double-ton."

Articles: Men's lined topcoats.

2. *Retail ceiling prices for listed articles.* Your ceiling prices for sales at retail of the articles identified above are the retail prices listed in your supplier's application filed with OPS. These prices will be included in a list which will be annexed to the copy of this order which you will receive from your supplier. The list of ceiling prices will be filed with the Federal Register as an appendix to this special order as soon as practicable. These ceiling prices are effective 10 days after you receive this order and the ceiling price list but in no event later than 60 days after the date this order is issued. You shall not sell above these ceiling prices. You may, of course, sell below these prices.

3. *Retail ceiling prices for unlisted items.* Some or all of the retail ceiling prices in this order are fixed in terms of the cost of the article to you. Whenever you receive one of applicant's branded articles which is in the same category and which has the same net cost as one covered by the list, the ceiling price for such article shall be the same as the ceiling price for the article having that same net cost.

4. *Retail ceiling prices affected by amendment to this order.* This order may be amended from time to time or it may be revoked. If so, the applicant is required to send you a copy of the revocation or amendment, together with any list of changes or additions in retail ceiling prices. The ceiling prices contained in any such amendment become your ceiling prices.

5. *Marking and tagging.* This order requires your supplier to preticket his articles by an early date. The label, tag or ticket must be in the following form:

OPS—Sec. 43—CPR 7
Price \$-----

After 90 days from the effective date of this order, unless you receive articles marked or tagged in this form, you must so mark or tag them yourself. Before that date you must mark, tag or post your prices in the manner required by the regulation which applies in the absence of this special order.

With respect to articles the ceiling prices of which are affected by any amendment to this order, the same rules apply except that you must mark or tag such articles as stated above not later than 60 days after the effective date of the amendment.

6. *Applicability.* This special order establishes your ceiling prices for the articles covered by it regardless of whether you would otherwise price the articles under CPR 7 or any other regulation. It applies to sales in the 48 states and the District of Columbia.

Provisions for the applicant.—7. *Notification to retailers.* As the manufacturer or wholesaler to whom this special order is issued, you shall do the following:

(a) *Sending order and list to old customers.* Within 15 days after the effective date of this special order, you shall send a copy of this order, together with a copy of the list referred to in section 8 below to each purchaser for resale to whom, within two months immediately prior to the effective date, you had delivered any article covered by this order.

(b) *Notification to new customers.* A copy of this special order and the list shall be sent to all other purchasers for resale on or before the date of the first delivery of any article covered by this order.

(c) *Notification with respect to amendments.* Within 15 days after the effective date of any subsequent amendment to this order, you shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, you had delivered any article included in such amendment. Within 15 days after any amendment, the amendment shall also be included with the notification to new customers.

(d) *Notification to OPS.* Within 15 days of the effective date of this order, you shall send a copy of the list of prices referred to in section 8 below to the Distribution Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C.

8. *Ceiling price list.* The ceiling price list must be annexed to a copy of the order and shall contain the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling prices fixed by the order. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Price to retailers	Retailer's ceilings for articles of cost listed in column 1
\$..... per..... unit. dozen. etc.	Terms [net. percent EOM. etc.]

9. *Pre-ticketing requirements.* As the applicant to whom this special order is issued, you must, within 60 days after the effective date of this order (or in the case of an amendment within 60 days after the effective date of that amendment), mark each article covered by this order with a statement in the following form:

OPS—Sec. 43—CPR 7
Price \$-----

Instead of marking the article you may attach a label, tag or ticket containing the same information.

10. *Sales volume reports.* Within 45 days of the expiration of the first 6-

month period following the effective date of this special order and within 45 days of the expiration of each successive 6-month period, you shall file with the Distribution Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which you have delivered in that 6-month period.

This special order may be amended or revoked at any time.

Effective date. This special order shall become effective on January 8, 1952.

MICHAEL V. DESALLE,
Director of Price Stabilization.

[Ceiling Price Regulation 7, Section 43,
Special Order 792]

PAULINE GORDON, INC.

CEILING PRICES AT RETAIL

Statement of considerations. This is an order establishing uniform retail prices issued upon the basis of an application filed by a supplier under section 43 of CPR 7. This section gives a manufacturer or wholesaler the right to apply for uniform retail ceiling prices for certain of his branded articles. This section requires that the articles must customarily have been sold at substantially uniform prices, and the ceiling prices applied for must not raise the general level of prices under CPR 7. The order may, of course, be amended or revoked if further review shows that the requirements of the regulation have not been fully met.

This special order requires each article to be tagged or marked with the retail ceiling price. The supplier must send to each retailer a copy of this special order, as well as a list of ceiling prices for each article or cost line and notice of all amendments. The order requires the supplier to file certain sales reports with OPS.

Retailers will be concerned with sections 1 through 6 of this special order which contain provisions applying to them. The rest of the order is of interest primarily to the applicant.

Order. For the reasons set forth in the Statement of Considerations and pursuant to section 43 of CPR 7, it is ordered that the following provisions be in effect:

Provisions for retailers—1. What this order does. Sections 1 through 6 apply to you and establish uniform ceiling prices if you sell at retail the articles identified below:

Name and address of applicant: Pauline Gordon, Inc., 112 Madison Avenue, New York 16, N. Y.

Brand names: "Pauline Gordon".

Articles: Women's brassieres, bras, slips, and girdles.

2. Retail ceiling prices for listed articles. Your ceiling prices for sales at retail of the articles identified above are the retail prices listed in your supplier's application filed with OPS. These prices will be included in a list which will be annexed to the copy of this order which you will receive from your supplier. The list of ceiling prices will be filed with the Federal Register as an appendix to this special order as soon as practicable. These ceiling prices are effective 10 days

after you receive this order and the ceiling price list but in no event later than 60 days after the date this order is issued. You shall not sell above these ceiling prices. You may, of course, sell below these prices.

3. Retail ceiling prices for unlisted items. Some or all of the retail ceiling prices in this order are fixed in terms of the cost of the article to you. Whenever you receive one of applicant's branded articles which is in the same category and which has the same net cost as one covered by the list, the ceiling price for such article shall be the same as the ceiling price for the article having that same net cost.

4. Retail ceiling prices affected by amendment to this order. This order may be amended from time to time or it may be revoked. If so, the applicant is required to send you a copy of the revocation or amendment, together with any list of changes or additions in retail ceiling prices. The ceiling prices contained in any such amendment become your ceiling prices.

5. Marking and tagging. This order requires your supplier to preticket his articles by an early date. The label, tag or ticket must be in the following form:

OPS—Sec. 43—CPR 7
Price \$-----

After 90 days from the effective date of this order, unless you receive articles marked or tagged in this form, you must so mark or tag them yourself. Before that date you must mark, tag or post your prices in the manner required by the regulation which applies in the absence of this special order.

With respect to articles the ceiling prices of which are affected by any amendment to this order, the same rules apply except that you must mark or tag such articles as stated above not later than 60 days after the effective date of the amendment.

6. Applicability. This special order establishes your ceiling prices for the articles covered by it regardless of whether you would otherwise price the articles under CPR 7 or any other regulation. It applies to sales in the 48 States and the District of Columbia.

Provisions for the applicant—7. Notification to retailers. As the manufacturer or wholesaler to whom this special order is issued, you shall do the following:

(a) **Sending order and list to old customers.** Within 15 days after the effective date of this special order, you shall send a copy of this order, together with a copy of the list referred to in section 8 below to each purchaser for resale to whom, within 2 months immediately prior to the effective date, you had delivered any article covered by this order.

(b) **Notification to new customers.** A copy of this special order and the list shall be sent to all other purchasers for resale on or before the date of the first delivery of any article covered by this order.

(c) **Notification with respect to amendments.** Within 15 days after the effective date of any subsequent amendment to this order, you shall send a copy of the amendment to each purchaser to

whom, within 2 months immediately prior to the effective date of such amendment, you had delivered any article included in such amendment. Within 15 days after any amendment, the amendment shall also be included with the notification to new customers.

(d) **Notification to OPS.** Within 15 days of the effective date of this order, you shall send a copy of the list of prices referred to in section 8 below to the Distribution Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C.

8. Ceiling price list. The ceiling price list must be annexed to a copy of the order and shall contain the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling prices fixed by the order. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Price to retailers	Retailer's ceilings for articles of cost listed in column 1
\$----- per-----	{unit. {not. dozen. percent EOM, etc. etc.
	\$-----

As the applicant to whom this special order is issued, you must, within 60 days after the effective date of this order (or in the case of an amendment within 60 days after the effective date of that amendment), mark each article covered by this order with a statement in the following form:

OPS—Sec. 43—CPR 7
Price \$-----

Instead of marking the article you may attach a label, tag or ticket containing the same information.

10. Sales volume reports. Within 45 days of the expiration of the first 6-month period following the effective date of this special order and within 45 days of the expiration of each successive 6-month period, you shall file with the Distribution Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which you have delivered in that 6-month period.

This special order may be amended or revoked at any time.

In its application filed October 5, 1951, Applicant requested the Commission, pursuant to section 7 (a) of the Natural Gas Act, to issue an order directing Texas Gas Transmission Corporation (Texas Gas) to establish a physical connection approximately six miles east of Sullivan, Indiana with a proposed line of Applicant, and to sell and deliver to Applicant a supply of natural gas in the maximum daily amount of at least 225,000 cubic feet.

On November 5, 1951, Texas Gas filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of a natural-gas sales metering station at the junction of Texas Gas' 12-inch gas transmission line and the proposed line of Applicant, and the sale and delivery of natural gas to Applicant in the amount of 225,000 cubic feet per day on an interruptible basis.

Application now seeks a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing it to construct and operate approximately 6 miles of 6-inch pipe line leading from the natural-gas sales metering station proposed by Texas Gas to Applicant's existing distribution system in the City of Sullivan.

It appearing, that in Ex Parte No. 162, Increased Railway Rates, Fares, and Charges, 1946, and Ex Parte No. 148, Increased Railway Rates, Fares and Charges, 1942, 264 I. C. C. 695, and 266

C. 9, the Commission authorized carriers subject to the Interstate Commerce Act parties thereto to make certain increases in their freight rates and charges for interstate application throughout the United States, and that increases under such authorizations have been made;

It further appearing, that a petition, dated November 7, 1951, has been filed on behalf of certain common carriers by railroad operating to, from and between points in the State of Utah, averring that the Public Service Commission of Utah has refused, in whole or in part, to authorize or permit petitioners to establish for intrastate transportation upon their railroads in Utah, increases in freight rates and charges corresponding to those authorized by this Commission and made by petitioners for application on interstate traffic in the proceedings above cited; such refusals being alleged in the manner and to the extent as more fully set forth in the said petition;

It further appearing, that petitioners allege that the refusal of the said Public Service Commission of Utah to permit the increases on intrastate traffic referred to in the preceding paragraph causes and results in undue and unreasonable advantage, preference and prejudice as between persons and localities in intrastate commerce on the one hand, and interstate commerce on the other hand, and in undue or unreasonable and unjust discrimination against interstate commerce, in violation of section 13 of the Interstate Commerce Act;

It further appearing, that there have been brought in issue by said petition rates and charges made or imposed by authority of the State of Utah;

It is ordered, That in response to the said petition, an investigation be, and it is hereby, instituted, and that a hearing be held therein for the purpose of receiving evidence from the respondents hereinafter designated and any other persons interested to determine whether the rates and charges of the common carriers by railroad, or any of them, operating in the State of Utah for the intrastate transportation of property made or imposed by authority of the State of Utah, cause or will cause, by reason of the failure or such rates and charges to include increases corresponding to those permitted by this Commission for interstate traffic in the proceedings cited above, any undue or unreasonable advantage, preference, or prejudice, as between persons or localities in intrastate commerce, on the one hand, and interstate or foreign commerce, on the other

hand, or any undue, unreasonable, or unjust discrimination against interstate or foreign commerce; and to determine what rates and charges if any, or what maximum, or minimum, or maximum and minimum rates and charges, shall be prescribed to remove the unlawful advantage, preference, prejudice, or discrimination, if any, that may be found to exist;

It is further ordered, That all common carriers by railroad operating within the State of Utah which are subject to the jurisdiction of this Commission be, and they are hereby, made respondents to this proceeding; that a copy of this order be served upon each of the said respondents; and that the State of Utah be notified of this proceeding by sending copies of this order and of said petition by registered mail to the Governor of the said State and to the Public Service Commission of Utah at Salt Lake City, Utah;

**NATIONAL ASSN. OF SECURITIES DEALERS,
INC., AND H. L. BROCKSMITH**

**NOTICE OF TIME FOR FILING WRITTEN
REQUEST FOR HEARING**

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 5th day of January 1952.

The National Association of Securities Dealers, Inc., a registered securities association (hereinafter referred to as the Association), has filed with this Commission, on behalf of a member, an application for approval of the firm's continuance in membership in the Association with H. L. Brocksmith as a registered representative thereof, pursuant to the provisions of section 15A (b) (4) of the Securities Exchange Act of 1934 (hereinafter referred to as the act).

The application states in substance:

1. That H. L. Brocksmith is presently employed by said member, a registered broker and dealer and a member of the Association in District No. 7, having its principal office in St. Louis, Mo.

2. That the Commission, by order of February 5, 1942, revoked the broker-dealer registration of H. L. Ruppert & Co., Inc., and expelled it from membership in the Association pursuant to section 15 (b) and section 15A (1) (2),

respectively, of the act, and that H. L. Brocksmith was "a cause" of that order.

3. That, pursuant to section 15A (b), (4) of the act, the Commission, on the recommendation of the Association, by order of July 13, 1948, approved the continuance in membership in the Association of another member with H. L. Brocksmith as a controlled person.

4. That the District Committee for District No. 7 and the Board of Governors of the Association have considered this present matter, including the opinion in the proceedings as more particularly set forth in paragraph 3 hereof, the subsequent activity of H. L. Brocksmith while in the employ of the other member, and the extent of supervision which will be exercised over his activities by the member on whose behalf application is made, and they believe that he should be permitted to engage in the securities business as an employee and registered representative of said member, that said member should be continued in membership in the Association, and they have concluded that the continuance of said member in membership in the Association with H. L. Brocksmith as an employee and registered representative thereof would be consonant with the stated purposes and policies of section 15A of the act.

Under the provisions of section 15A (b) (4) of the act, as amended, and section 2 of Article I of the Association's By-Laws, said member may not be continued in membership in the Association so long as H. L. Brocksmith is employed by said member, except with the approval of the Securities and Exchange Commission based upon a finding that such approval is appropriate in the public interest.

Notice is hereby given that any interested person may informally present his views or any information relating to this matter by communicating with Thomas B. Hart, Administrator of the Commission's Chicago Regional Office, Bankers Building, 105 West Adams Street, Chicago 3, Illinois, on or before February 15, 1952, and that within the same time any person desiring that a formal hearing be held may file with the Secretary of the Commission a written request to that effect, together with a brief statement of the nature of his interest in the proceeding and the position which he proposes to take. In the absence of such a request by any person having a bona fide interest in the proceedings, the Commission will either set the matter down for hearing on its own motion after appropriate notice or, if it should appear appropriate so to do, will grant the application on the basis of the record and without formal hearing.

This notice shall be served on said member firm and the Association not less than fifteen (15) days prior to February 15, 1952, and published in the FEDERAL REGISTER in the manner prescribed by the Federal Register Act not later than fifteen (15) days prior to February 15, 1952.

By direction of the Commission.
